#### Symptom (öffentlich)

How long will the processing of my application take?

#### Problem (öffentlich)

#### Lösung (öffentlich)

Since the new regulations require the admission at the beginning of the doctoral project, we are expecting a high number of requests of candidates who are working on their project already and are retroactively applying for admission now.

Due to this reason, there may be delays in processing your application. We ask for your patience during this time.

If you are going to apply for the initiation of the doctorate procedure in the near future, we kindly ask you to apply for the admission at the same time so that both applications can be processed in a timely manner.
